

CDI LW400 Point of Entry System

Latest Capacitive Deionization Point-of-entry system for your home
 High recovery, low electricity consumption and zero chemical usage.

Homeowners:

LW400 has unlimited benefits for homeowners! Our innovative CDI technology allows you unprecedented control over the quality and taste of your home's water, all while reducing your environmental footprint. Easy to use and maintain, LW400 saves you money through a lower total cost of ownership with higher quality water that is better for your skin, hair, laundry and valuable appliances!

Home Builders:

LW400 sets your brand apart by providing fundamentally better water running through your homes - and out of them. CDI positions you to be on the cutting-edge of water purification technologies, allowing you to offer your homeowners the ability to customize the quality of their pure water. CDI uses and wastes less water, achieving environmental responsibility and making it easy to comply with current and future sodium chloride discharge regulations.

Resellers:

CDI, the innovative technology within our LW400 Systems, sets you apart from other water treatment consultants and resellers while positioning you as a more forward-thinking, smarter water professional. Logicwater is here for you, offering system support if and when you need it. We want you to be successful with our technology, which has been proven to work in hundreds of installations and a wide range of applications. Interested in becoming a CDI distributor?
